

# Stewart County Comprehensive Plan 2018

## Stewart County Vision Statement

A successful Stewart County is a community with new businesses scattered throughout the county, affordable housing for everyone, well-maintained roads and bridges, and county water available to all residents.

We want Stewart County to be a drug-free place where citizens and elected officials work together to improve the community. We want all residents of Stewart County to have a job and an affordable, healthy and safe home. We want to use our plentiful natural resources, state and local parks, and abundant available land to draw new residents to Stewart County. With sincere, ethical elected officials collaborating with local residents in a community-wide effort, we can address these needs and become a progressive Stewart County.

## Priority Projects In No Particular Order

1. Omaha Street Re-surfacing
2. Ambulances
3. EMS Center
4. Additional Re-surfacing of Trotman Road
5. Study Paving Remainder of Moore's Store Road
6. Striping of Sundown Road
7. Brinson Road Septic System Project

## Stewart County Goals

1. Make residents more aware of county, state and federal resources to improve their quality of life.
2. Promote and maintain a stable economic environment for Stewart County.
3. Improve housing options and conditions throughout Stewart County.
4. Increase Public awareness of natural and cultural resources and conservation.
5. Provide essential recreational facilities that are well-maintained and accessible to all residents.
6. Provide facilities for essential medical care and wellness for residents of Stewart County.
7. Maintain environmentally sound infrastructure to protect the public safety, health and welfare.
8. Provide essential public safety and emergency services to protect the public health, safety and welfare of Stewart County residents.
9. Provide essential governmental facilities that are well-maintained and accessible to all Stewart County residents.
10. Provide an environmentally sound and economically feasible means of solid waste collection and disposal
